Subject: RE: Are You Working?

Hi Dave,

Stacy Gillespie (OCC) and I have three questions for you if you're willing and able. One is in regards to a request from the Colorado River RWB to have EPA's proposed criterion supersede the water quality objectives for the Salton Sea tributaries. Are you even willing to consider doing so? The second is in regards to our presumption that no further rulemaking will be necessary for the Water Boards to subsequently develop water column values based on the draft performance-based approach translation document. It would be helpful to know if you agree or can elaborate. Finally, I'm curious to know if the comment period may be extended due to the shutdown.

We're happy to find time for a phone call if that is easier for you. Also, I certainly understand if you're unable to respond.

Best,
Rebecca

Sorry Rebecca- We're completely shutdown. But if you email me your ?, I MIGHT be able to answer it or get an answer.
Best
Dave

Hi Dave,

We have some questions on selenium. Are you able to get on the phone this week or next?

Thanks,
Rebecca
